

Marie Skłodowska - Curie Individual Fellowships

Evaluation procedures and Statistics of the previous calls

Martedì - Tuesday 29/05/ 2018, 9:00 - 13:00

Aula Verde - Ca' Vignal (Strada Le grazie 15 - Borgo Roma)

Giovedì - Thursday 31/5/2018, 9:00 - 19:00

Aula 1.4- Polo Zanotto (Viale Università, 4 - Veronetta)

- **12 April 2018**
 - Publication of the call
- **12 September 2018 at 17:00**
 - Call's Deadline
- **October - December 2018**
 - Evaluation of proposals
- **February 2019**
 - Information on the outcome of the evaluation
- **March - May 2019**
 - Indicative date for the signature of Grant Agreements
- **1 March 2019 – 1 September 2020**
 - Time span for starting the project

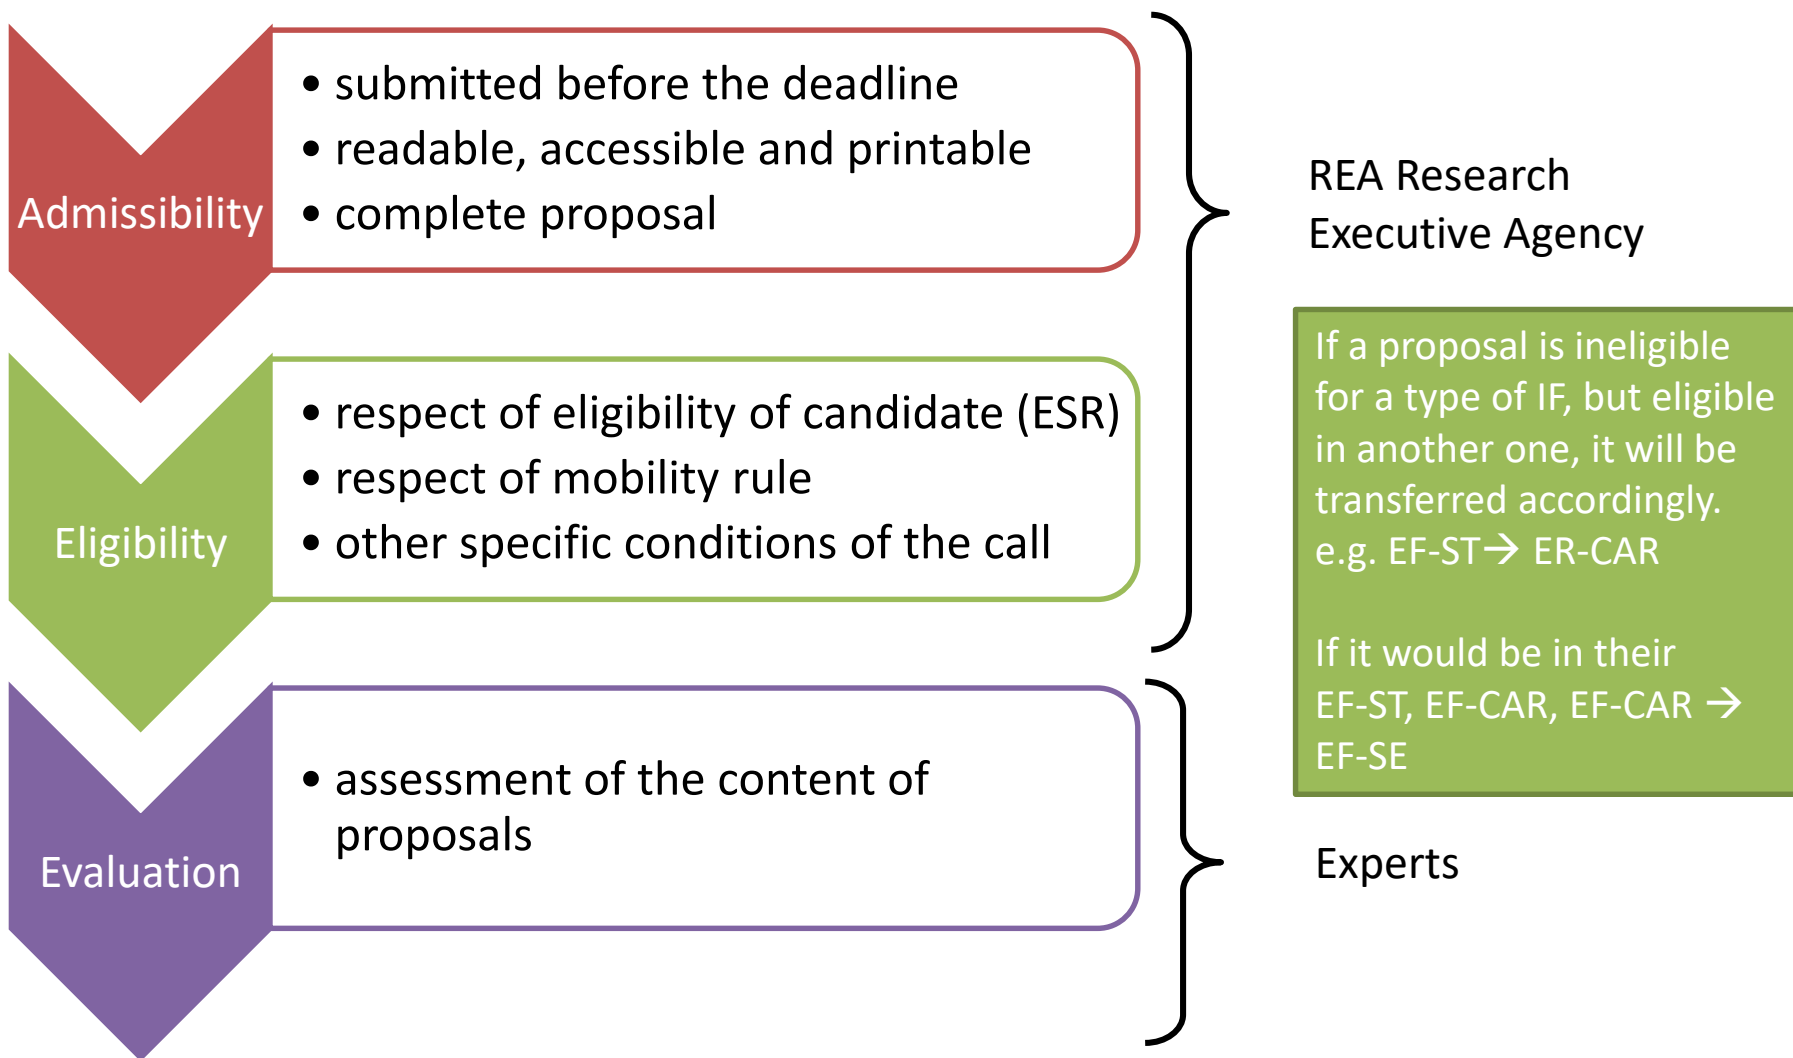

When does the project start?

Default option:

first day of the month following the signature of the Grant Agreement

Most common option:

a fixed date within 12 months after the signature of the Grant Agreement

Excellence	50%	Impact	30%	Quality and efficiency of the implementation	20%
Quality and credibility of the research/innovation project; level of novelty, appropriate consideration of inter/multidisciplinary and gender aspects		Enhancing the potential and future career prospects of the researcher		Coherence and effectiveness of the work plan	
Quality and appropriateness of the training and of the two way transfer of knowledge between the researcher and the host		Quality of the proposed measures to exploit and disseminate the project results		Appropriateness of the allocation of tasks and resources	
Quality of the supervision and of the integration in the team/institution		Quality of the proposed measures to communicate the project activities to different target audiences		Appropriateness of the management structure and procedures , including risk management	
Capacity of the researcher to reach or re-enforce a position of professional maturity/independence				Appropriateness of the institutional environment (infrastructure)

3

overall threshold of 70%

Proposals will **not** be evaluated **anonymously**.

Evaluation scores will be awarded for each of the **three criteria** (see table below). All of the separate elements of each criterion will be considered.

Each criterion will be scored **from 0 (negative) to 5 (excellent)**. Decimal points may be given.

The final score (in percentage) is equal to the score of each criterion x weight.

*0 – Proposal **fails** to address the criterion or cannot be assessed due to missing or incomplete information.*

*1 – **Poor**. The criterion is inadequately addressed, or there are serious inherent weaknesses.*

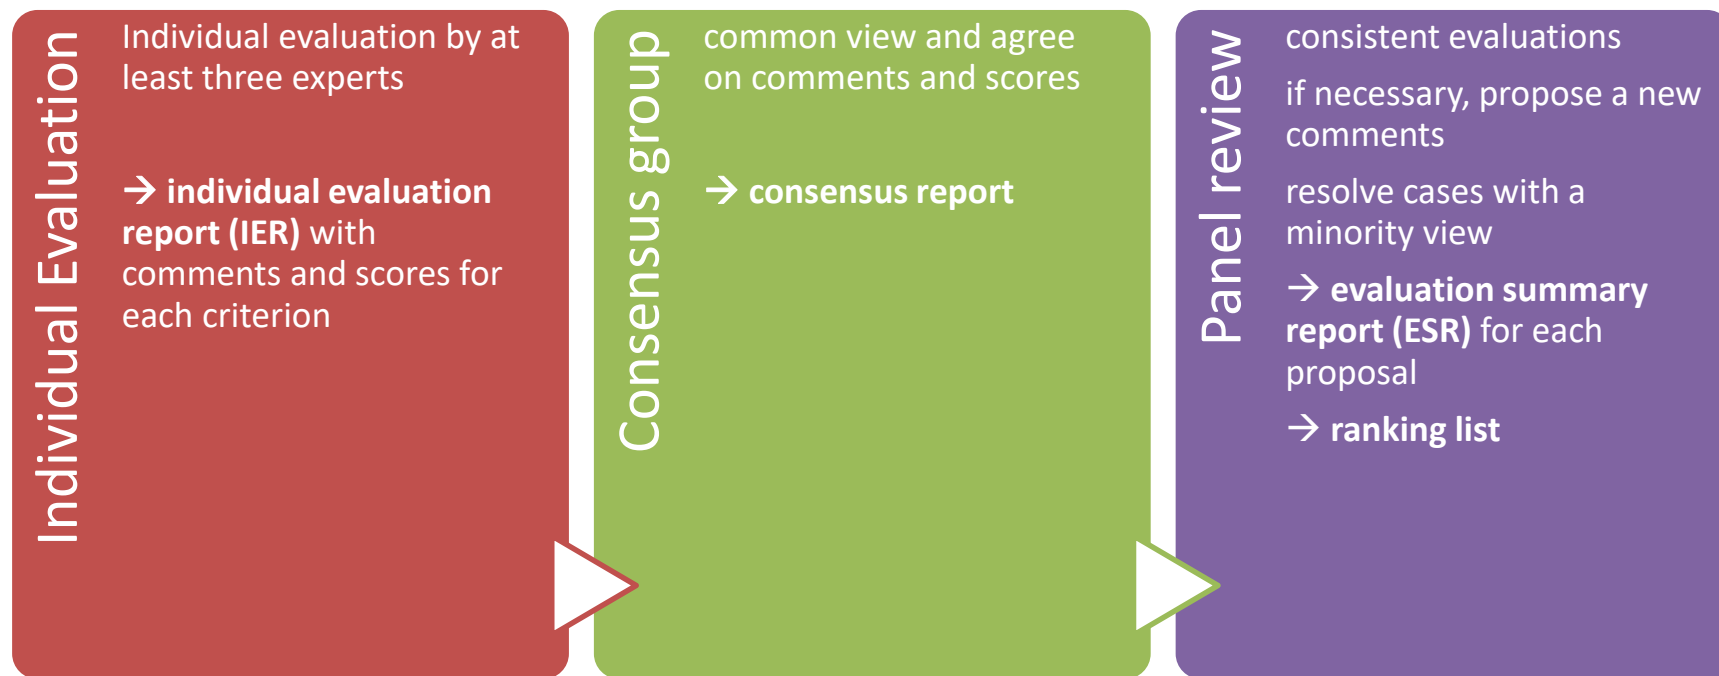

*2 – **Fair**. Proposal broadly addresses the criterion, but there are significant weaknesses.*

*3 – **Good**. Proposal addresses the criterion well, but a number of shortcomings are present.*

*4 – **Very Good**. Proposal addresses the criterion very well, but a small number of shortcomings are present.*

*5 – **Excellent**. Proposal successfully addresses all relevant aspects of the criterion. Any shortcomings are minor.*

The evaluation process

- **Experts** perform evaluations on a **personal basis**, not as representatives of their employer, their country or any other entity.
- They are required to be **independent, impartial and objective**, and to behave throughout in a professional manner.
- They sign a **declaration of confidentiality** and **absence of conflict of interest**, before beginning their work

Experts are **selected according to the Scientific Area, Descriptors, Free key words and Summary** you have provided in Part A

They are **expert in a discipline** or business area relevant for your project, but **not necessarily in the topic** of your proposal

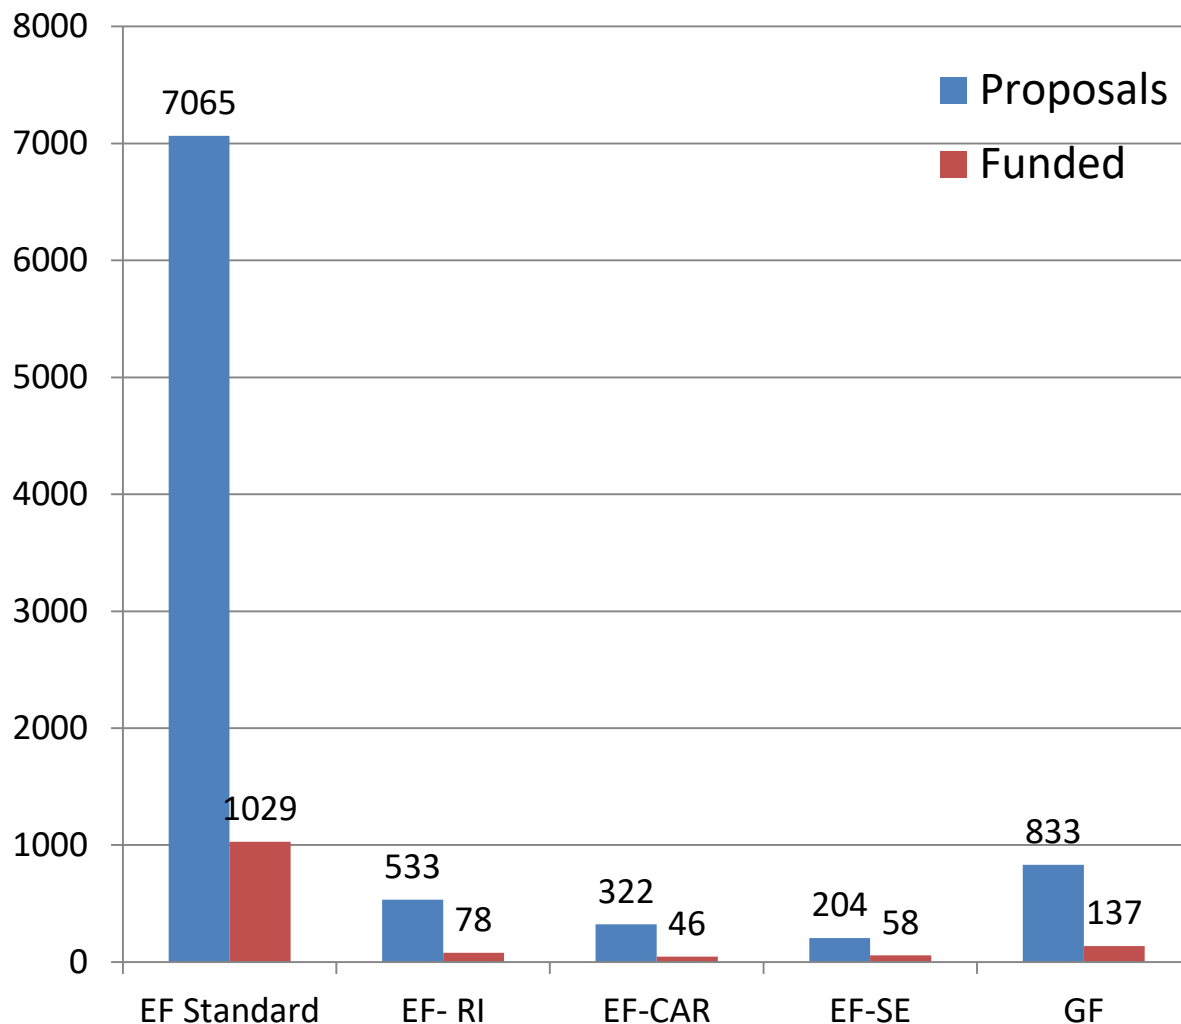

They might follow **different approaches, use techniques** and belong to **different traditions**

They read **many proposals at the same time**

They review proposals **in the spare time** (they usually teach, run business...)

They have to follow the **evaluation grid**

- Write in clear and plain English
- Limit acronyms
- Integrate text, pictures and graphs...
- Answer each section / paragraph: they correspond to sub-criteria
- Consider different viewpoints and try to answer all possible objections
- Try to be unique... but not too original

Success rate

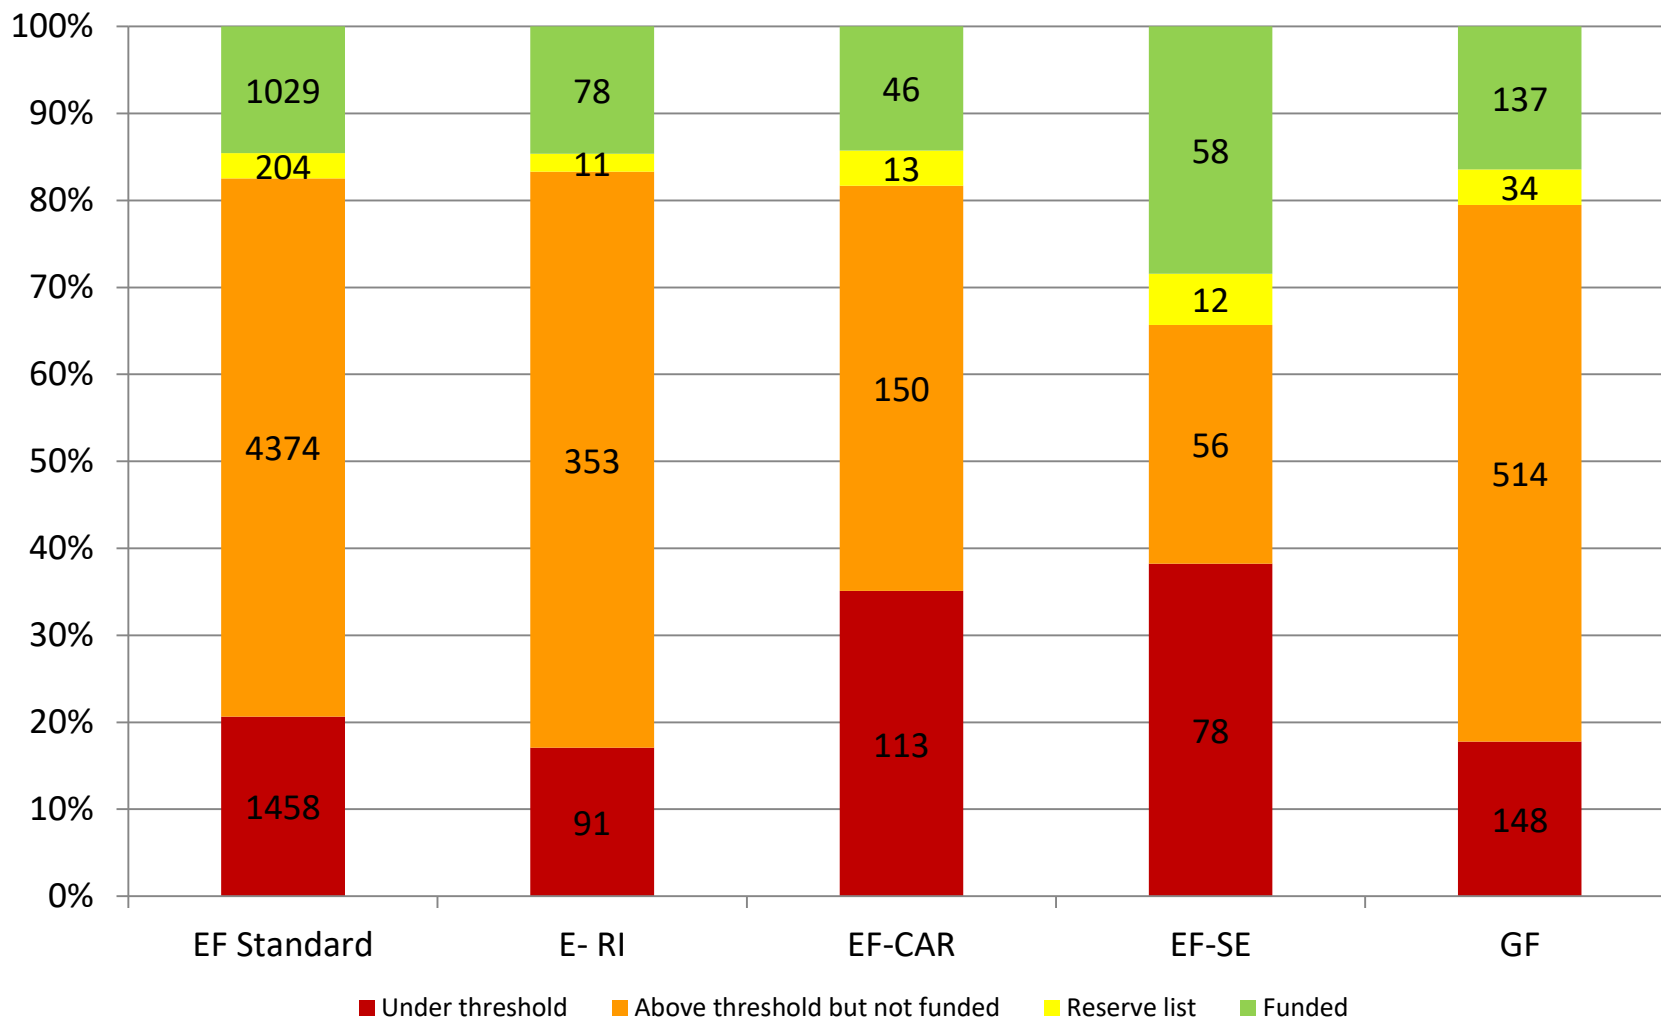

EF Standard: 14,56%

EF-RI: 14,63%

EF-CAR: 14,29%

EF-SE: 28,43%

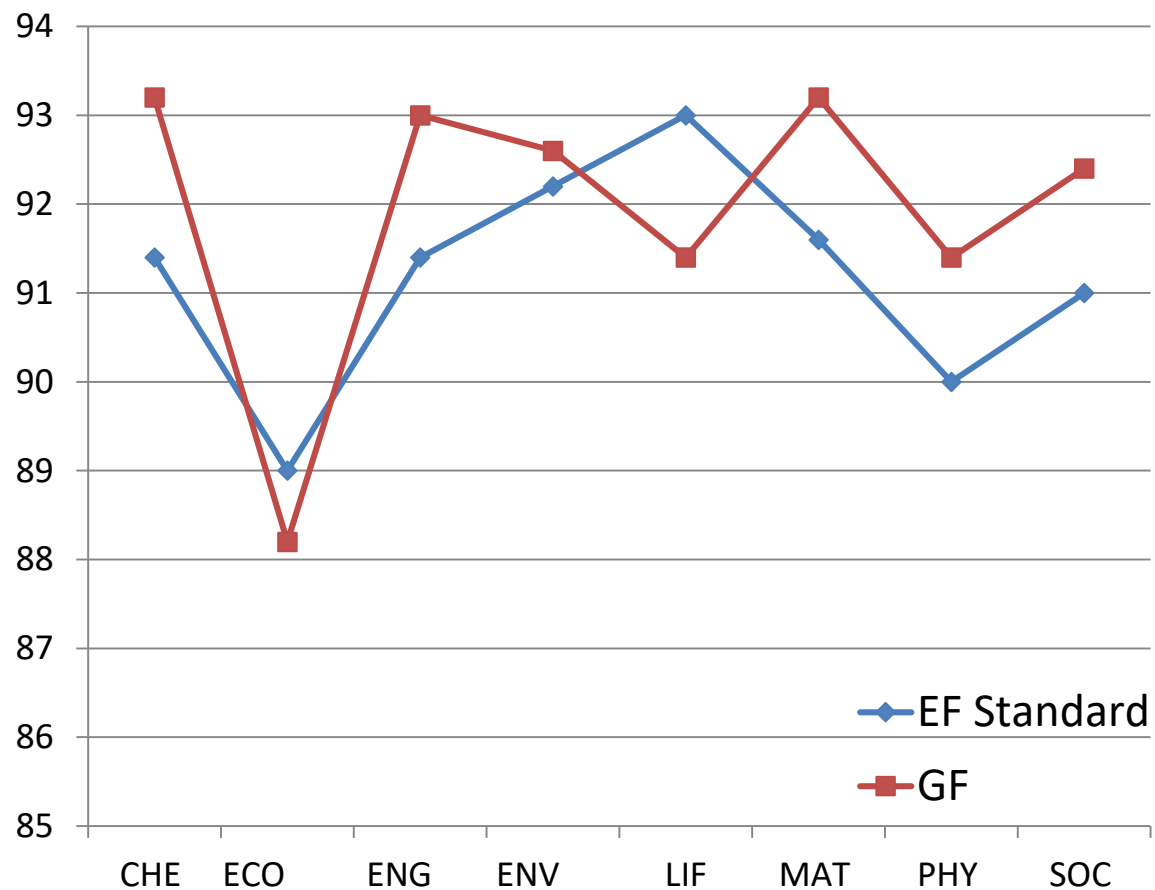

GF: 16,45%

	EF Standard	GF
CHE	91,4	93,2
ECO	89,0	88,2
ENG	91,4	93
ENV	92,2	92,6
LIF	93,0	91,4
MAT	91,6	93,2
PHY	90,0	91,4
SOC	91,0	92,4

EF-RI	EF –CAR	EF-SE
93,4	91,4	83,6

Success rate does not depend on discipline

Budget is distributed among the panels according to the received eligible proposals

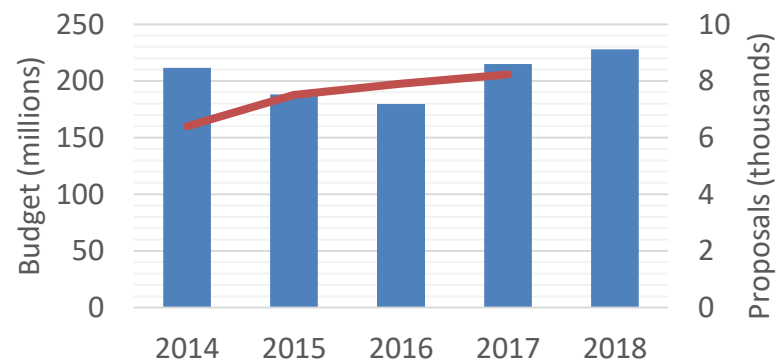

However, within the EF fellowships, **CAR and RI will have a higher success rate** thanks to a new “correction mechanism”

EF-SE (with its own budget) will probably have a higher success rate

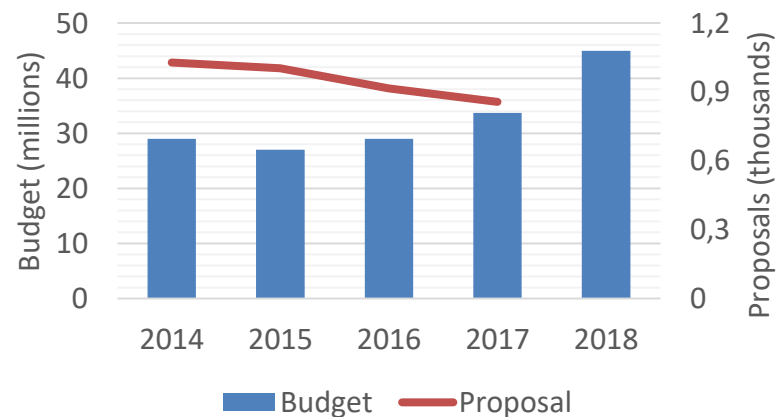

GF are expected to have a higher success rate than EF (like in 2017), thanks to a higher budget and reduced number of proposals in the last calls

In any case, according to our experience:
If you get a good evaluation, try again!

European Fellowship

Global Fellowship

9 MSCA Individual Fellowships
hosted by UNIVR in Horizon 2020

and

5 MSCA Individual Fellowship of
UNIVR researchers with other HI

Mainly in
Humanities and Mathematics

Marie Curie is really an opportunity
for everybody and any sector!
