• Evaluation of proposals

• **February 2020**

• Information on the outcome of the evaluation

• **March - May 2020**

• Indicative date for the signature of Grant Agreements

• **1 March 2020– 1 September 2021**

• Time span for starting the project

When does the project start?

Default option:

first day of the month following the signature of the Grant Agreement

Most common option:

a fixed date within 12 months after the signature of the Grant Agreement

The evaluation process

Individual Evaluation

- Individual evaluation by at least three experts
→ **individual evaluation report (IER)** with comments and scores for each criterion

Consensus group

- common view and agree on comments and scores
→ **consensus report**

Panel review

- consistent evaluations
- if necessary, propose a new comments
- resolve cases with a minority view
- → **evaluation summary report (ESR)** for each proposal
- → **ranking list**

Proposals will **not** be evaluated **anonymously**.

Evaluation scores will be awarded for each of the **three criteria** :

- **Excellence**
- **Impact**
- **Implementation**

from 0 (negative) to 5 (excellent).

All of the separate elements of each criterion will be considered.

Evaluation criteria

Excellence	50%	Impact	30%	Quality and efficiency of the implementation	20%
Quality and credibility of the research/innovation project; level of novelty, appropriate consideration of inter/multidisciplinary and gender aspects		Enhancing the potential and future career prospects of the researcher		Coherence and effectiveness of the work plan	
Quality and appropriateness of the training and of the two way transfer of knowledge between the researcher and the host		Quality of the proposed measures to exploit and disseminate the project results		Appropriateness of the allocation of tasks and resources	
Quality of the supervision and of the integration in the team/institution		Quality of the proposed measures to communicate the project activities to different target audiences		Appropriateness of the management structure and procedures , including risk management	
Capacity of the researcher to reach or re-enforce a position of professional maturity/independence				Appropriateness of the institutional environment (infrastructure)

Some words about the experts

Experts are **selected according to the Scientific Area, Descriptors, Free key words and Summary** you have provided in Part A

They are **expert in a discipline** or business area relevant for your project, but **not necessarily in the topic** of your proposal

They might follow **different approaches, use techniques** and belong to **different traditions**

They read **many proposals at the same time**

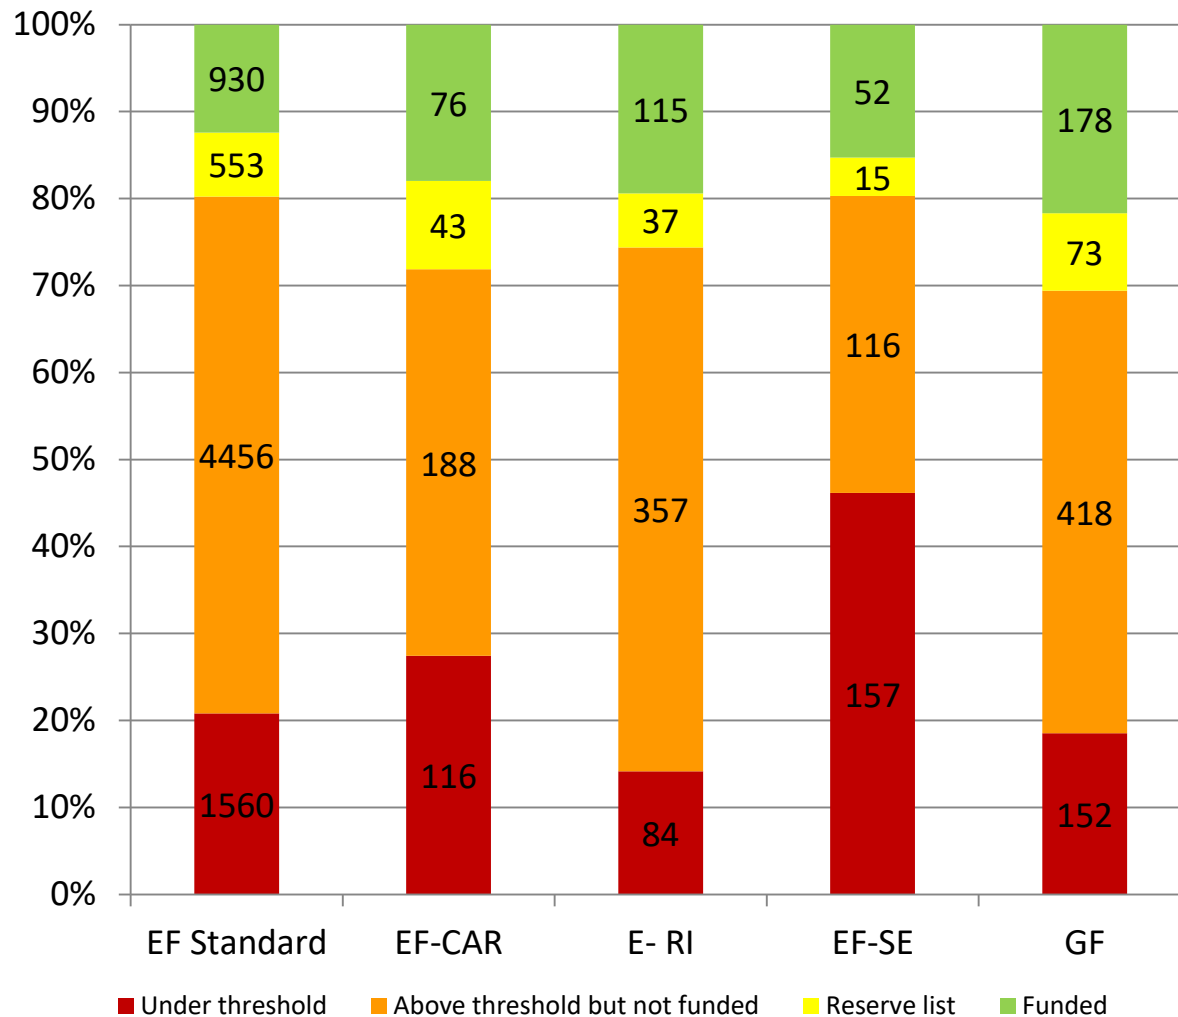

They review proposals **in the spare time** (they usually teach, run business...)

They have to follow the **evaluation grid**

- Write in clear and plain English
- Limit acronyms
- Integrate text, pictures and graphs...
- Answer each section / paragraph: they correspond to sub-criteria
- Consider different viewpoints and try to answer all possible objections
- Try to be unique... but not too original

MSCA-IF-2018 Evaluation outcome

Success rate

EF Standard:	12,40%
EF-CAR:	17,97%
EF-RI:	19,39%
EF-SE:	15,29%
GF:	21,68%

REMARK

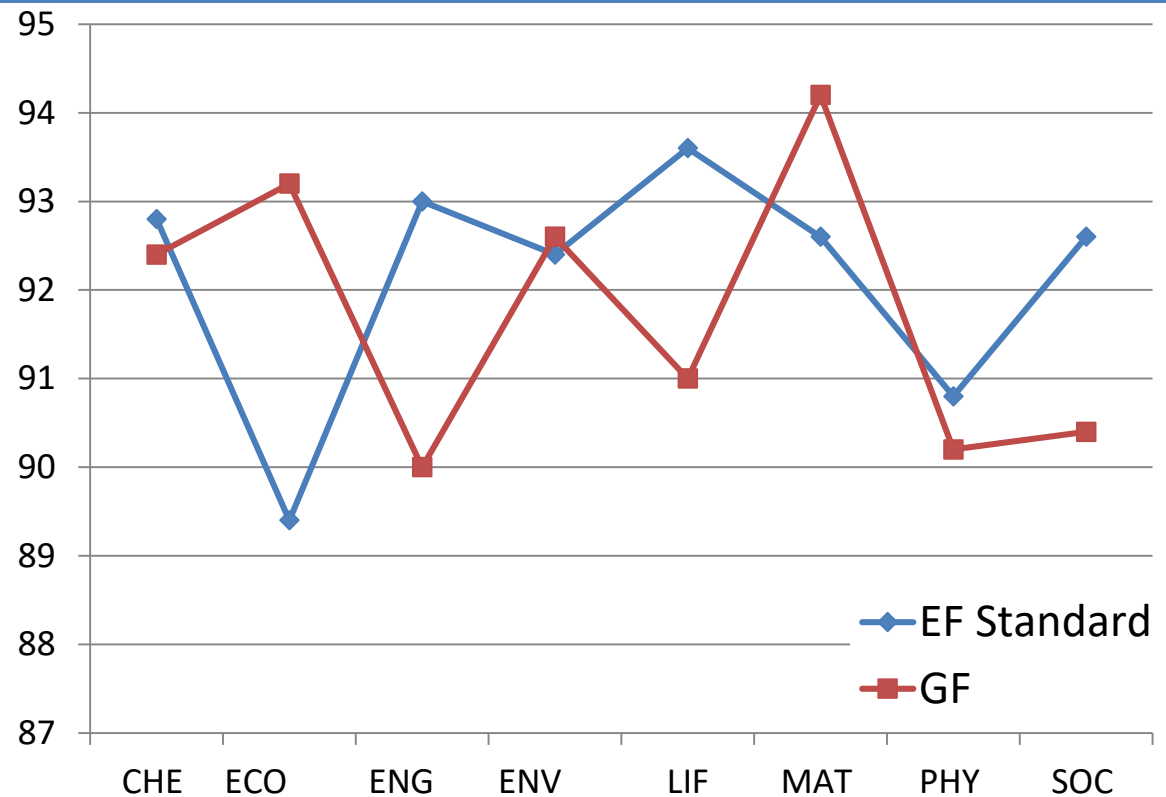

Reserve List is wider than usual (to be used in case of hard Brexit)

MSCA-IF-2018

Cut-off score per panel (score you need to get funded)

	EF Standard	GF
CHE	92,8	92,4
ECO	89,4	93,2
ENG	93,0	90,0
ENV	92,4	92,6
LIF	93,6	91,0
MAT	92,6	94,2
PHY	90,8	90,2
SOC	92,6	90,4

EF-CAR	EF-RI	EF-SE
91,2	92,4	87,0

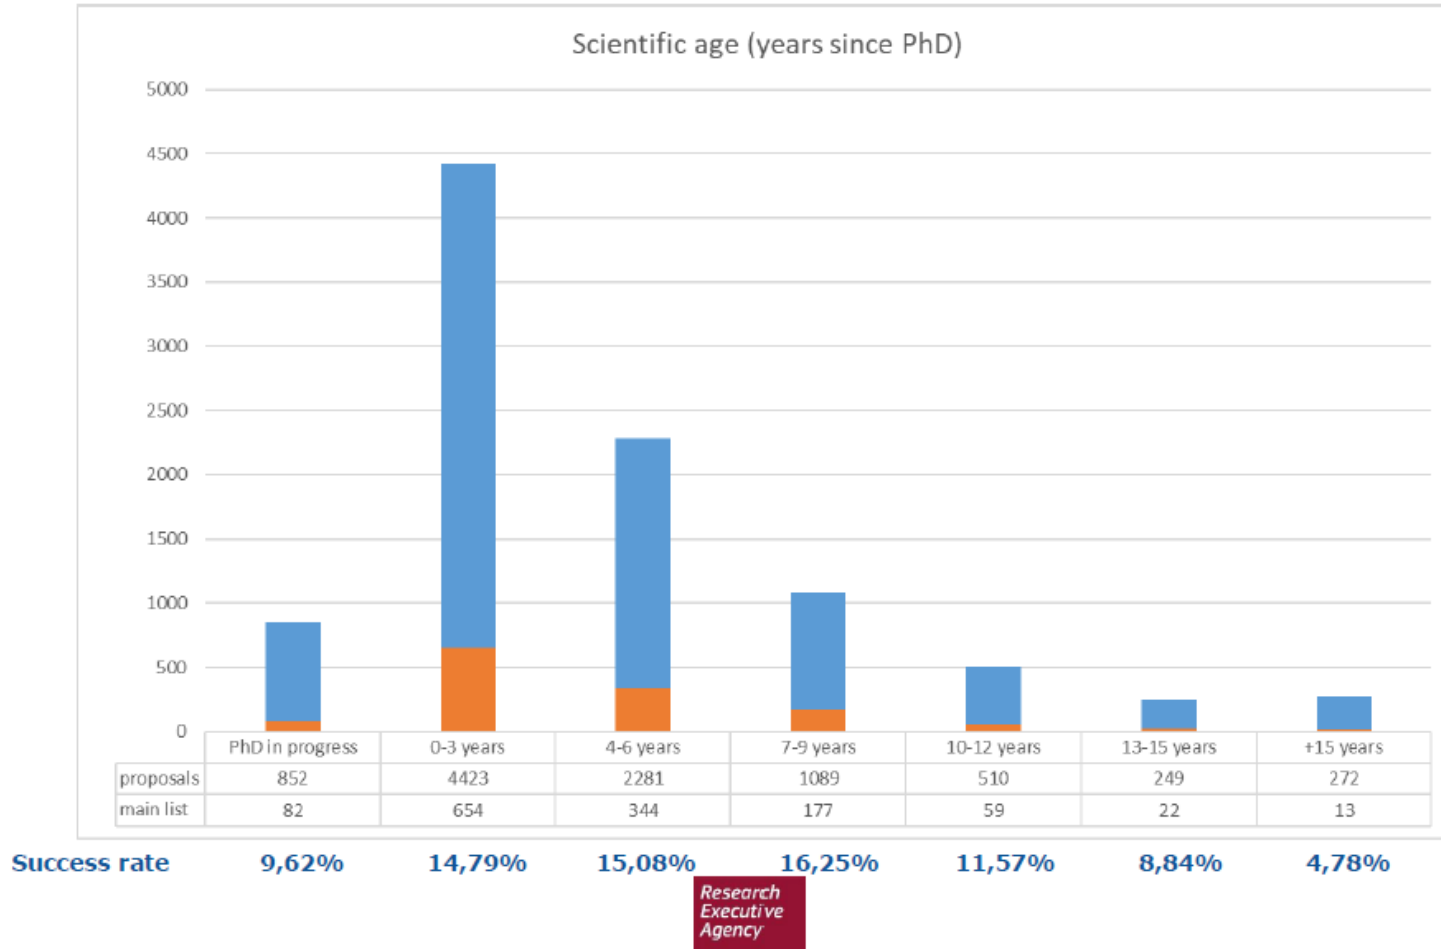

Success rate does not depend on discipline

Budget is distributed among the panels according to the received eligible proposals

MSCA-IF-2018

Scientific age, applications and and success rate

Final considerations

Within the EF fellowships,

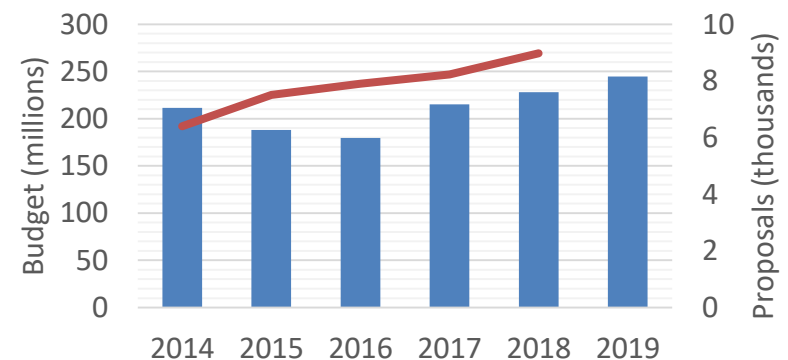

- **CAR and RI will have a higher success rate** thanks to a new “correction mechanism”
- **EF-SE (with its own budget) will probably have a higher success rate**

GF are expected to have a higher success rate than EF (like in 2018), thanks to a higher budget and stable number of proposals in the last calls

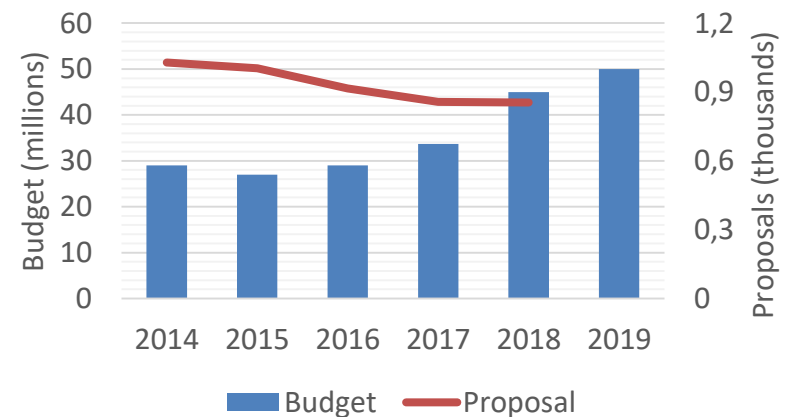

Resubmissions have higher success rate:
22,74% in Call 2018

If you got a good evaluation in the past, try again!
