The Ethics Self-Assessment does not refer only to  
medical/clinic studies!

Ethics Self Assessment is not part of the evaluation

**BUT**

Ethical issues might arise during your project and **jeopardise  
its results or prevent you to obtain the funding!**

Questions about eligibility

- Military service
• Refugee status
• Break in the career (only for EF-CAR)
• Nationality / Citizenship (only EF-RI and GF)
• Non-academic status of the HI (only for EF-SE)
• Participation to the Widening Fellowships (only for EF with Widening Countries)

Publicity of researcher / proposal (EC permission)

- For funded proposals (1)
• for potential funders (2), if the project is not funded by MSCA

Tick yes for both!!

Secondment in EU /AC

If you have planned a secondment:

- give the sector (academic o non-academic?)
• give the name and country of the partner organisation hosting the secondment (if known)

5 - Call specific questions

- 1. Were you in the last 5 years in military service?
2. Did you spend time on procedures for obtaining refugee status...
3. Are you a national of a Member State or Associated Country?

- 1. For communication purposes only, the European Commission REA asks for permission to publish the name of the researcher...
2. Some national and regional public research funding authorities run schemes to fund MSCA applicants...
3. Is there a secondment in Member States or Associated Countries envisaged in Part B of this proposal?

Attention: this secondment is different than the outgoing phase in the Third Country and only takes place in Member State / Associate Country!!!

Form with questions: 'In which sector is the secondment in Member States / Associated Countries foreseen?' and 'Do you already know the organisation to which this secondment will be?'

Extended Open Research Data Pilot in Horizon 2020 ?

If selected, applicants will by default participate in the [Pilot on Open Research Data in Horizon 2020<sup>1</sup>](#), which aims to improve and maximise access to and re-use of research data generated by actions.

However, participation in the Pilot is flexible in the sense that it does not mean that all research data needs to be open. After the action has started, participants will formulate a [Data Management Plan \(DMP\)](#), which should address the relevant aspects of making data FAIR (findable, accessible, interoperable and re-usable), including what data the project will generate, whether and how it will be made accessible for verification and re-use, and how it will be curated and preserved. Through this DMP projects can define certain datasets to remain closed according to the principle "as open as possible, as closed as necessary". A Data Management Plan does not have to be submitted at the proposal stage.

Furthermore, applicants also have the possibility to opt out of this Pilot completely at any stage (before or after the grant signature). In this case, applicants must indicate a reason for this choice (see options below).

Please note that participation in this Pilot does not constitute part of the evaluation process. Proposals will not be penalised for opting out.

We wish to opt out of the Pilot on Open Research Data in Horizon 2020.  Yes  No

If opting out please indicate the reason(s) for not being able to participate in the Pilot:

- the project does not generate any data	<input type="checkbox"/>
- to allow the protection of results (e.g. patenting)	<input type="checkbox"/>
- incompatibility with the need for confidentiality linked to security	<input type="checkbox"/>
- incompatibility with privacy/data protection	<input type="checkbox"/>
- achievement of the project's main aim would be jeopardised	<input type="checkbox"/>
- other legitimate reasons	<input type="checkbox"/>

## Do you wish to opt out of the Pilot on Open Research Data in Horizon 2020?

**Research data:** information, in particular facts or numbers, collected during the project

**Open Access to research data:** right to access and reuse digital research data

OA to Research Data is **mandatory unless:**

- no data is produced
- you plan to exploit it commercially
- security is endangered
- you need to protect the privacy (and cannot find any other solution!)
- the project would be jeopardised
- for other legitimate reasons
